HEATING:

Remove amount of polish sausage you are serving from vacuum-sealed package. Put remainder of frozen sausage back into freezer. Thaw completely before heating.

MICROWAVE:

Place sausage on a microwave safe dish and heat for 2 to 3 minutes on high temperature. Casing may split during heating. If preparing more than one at a time you may need to heat longer.

Temperature and time may vary as some microwaves cook faster than others.

GRILLING:

Preheat grill to hot. Place sausage on hot grill, heat for 5 to 6 minutes, turning frequently. Casing will brown and split when heating.

PAN FRY:

Place in a medium hot skillet. Heat for 5 to 6 minutes, turning frequently. Casing will brown and split when heating.
